### **CDRA Celebrates Another Successful C&D World Event.**

**Las Vegas, Nevada (May 15, 2023)** - The construction and demolition recycling industry's premier event, C&D World, has successfully concluded, held in conjunction with CONEXPO-CON/AGG. Hosted by the Construction & Demolition Recycling Association (CDRA), C&D World 2023 was held from March 14 -15 at the Paris Las Vegas Resort and Casino in Las Vegas, Nevada.

C&D World has always been the ultimate destination for industry professionals to learn about the latest services and equipment, network with peers from across North America and beyond, and gain valuable insights from experts. This year's event was no different, as attendees engaged with speakers on topics such as Environmental Justice/Environmental Impact, Regulatory Matters, Corporate Governance, Mergers & Acquisitions, Transporting Waste, Risk Management, Operations, and End Markets.

The event was a huge success, with early reports indicating that attendees found it refreshing to be able to collaborate in person again while staying up to date on the latest industry trends.

CDRA is already gearing up for next year's event, which promises to be even bigger and better. The next conference will be held January 31st - February 2nd at the Hyatt Coconut Point Resort and Spa in Bonita Springs, FL, with Southwest Waste agreeing to host our exclusive mixed C&D operations plant tour. Planning for 2024 C&D World has already begun, so be on the lookout for more information coming soon.

"We're thrilled with the success of C&D World 2023 and are already looking forward to next year's event," said Jason Haus, President of CDRA. "The C&D industry is constantly evolving, and C&D World provides the perfect platform for industry professionals to come together, share ideas, and learn from each other. We can't wait to see what next year's event has in store."
