

C&D World Best Chance To Learn More About C&D

By Paul Kuhar

As the CDRA's new Convention Committee Chair, I am very excited to be a part of an amazing team collaborating with leading experts in the construction recycling industry to bring you C&D World 2019. My first C&D World show was in Nashville, TN in 2015 as our first construction recycling plant was opening its doors. I remember the feeling I had of amazement as I walked around and saw so many industry leaders that I had looked up to and read about in the trade magazines. This is what C&D World is all about, seeing some of the latest advancements in construction and demolition recycling, meeting new people, collaborating, and working together as an organization to advance the industry ahead to make a true change in C&D recycling.

We are excited to bring you a fantastic show in Brooklyn, New York this year with some incredible sessions. As construction and demolition recycling continues to advance so does technology and the potential opportunities outside the normal box or services we provide as operators. Our show will kick off discussing some of the latest technology advancements, current economic forecast, and a very hot topic that operators are faced with on a daily basis, Recycling plant fires.

C&D recycling has evolved over the years which has allowed C&D recycling facilities the ability to create opportunities company-wide including additional jobs, additional recycling opportunities and new technology to address more material diversion from landfills. As operators we often find ourselves asking what does it take to find the right candidate? How do you stay ahead of the competition in a very competitive environment? What can you do to become more diversified in your current business model? These questions will be discussed during our Monday sessions as we layout labor force issues, diversification in business, and new lines of business that you can add to your current operation.

Diversification in your business can create an opportunity that you may have never thought possible. C&D World will conclude with two world-class facility tours that will highlight what can be done with some of the latest state-of-the-art technology available to our industry processing two very different material streams.

C&D World is a must-attend for anyone involved in construction and demolition recycling, processing, hauling, and regulating to continue advancing the industry through education and processing.

See you in New York.

Besides serving as CDRA Convention Committee Chair, Mr. Kuhar is Vice President at Champion Waste & Recycling Services, Dallas, TX

C&D World Registration Open

Registration for the only event for the C&D industry, C&D World 2019 is [now open](#).

The program for the March 9-12 event in Brooklyn, which is the Annual Meeting of the CDRA includes top speakers on industry-related issues:

- Labor force retention and recruitment;
- Diversification into related businesses;
- Concrete recycling;
- Economic forecast;
- Biochar Gypsum recycling

C&D World will also feature an exhibit hall featuring the latest products and services for the C&D industry.

In addition, there are limited slots for two tours of state-of-the-art facilities. Cooper Recycling is a C&D facility, while Sims Municipal Recycling is an excellent MRF with all the latest equipment and processes.

Of course, the popular CDRA fundraiser, sponsored by General Kinematics, will take place on Monday March 11, and the program opens on Sunday, March 10, with the Technology Forum, reporting on the latest equipment available.

For more information, visit our [conference homepage](#).

The Future is Here at WasteExpo (and friends of CDRA save big!)

Are you ready to see where the industry is headed? [WasteExpo](#) is back in Las Vegas May 6-9, 2019 and you need to be there! Over the last 50 years, WasteExpo has helped usher in more innovations in the solid waste and recycling industry than any other event. And the future looks even more promising.

In the words of Jim Fish, CEO of Waste Management, WasteExpo is truly an "innovation show." From equipment and vehicles to operational and business tools, game-changing technologies are emerging faster and faster.

Yes... the future is NOW!

What can you expect at WasteExpo 2019?

- 14,000+ participants (hopefully including YOU!)
- **600+ exhibitors** ready to help with your latest challenges
- Innovation & technology at the forefront in [educational sessions](#)
- The popular (and FREE!) Spotlight Sessions will be back, highlighting the latest trends and must-know insights
- Interactive outdoor demos to give you that hands-on experience
- ...and more!

It's worth the trip year after year. Get more solutions and make and foster the connections that last a lifetime.

Register today with promo code **VP28** for **FREE Exhibit Hall entry and 25% off the Premium Package**.

Visit [wasteexpo.com](#) to learn more!

**Discount only applies to new registrants and cannot be combined.*

Demolition Rockies Registration Opens Soon

Demolition Rockies takes place March 22-25, 2019, for three days of networking and education for the demolition industry at the National Demolition Association's Annual Convention and Expo. Demolition Rockies will feature in-depth education sessions and the favorite 15-minute "Fast and Furious" presentations; opportunities to network with your peers and industry vendors; and the return of the Live DEMolition Event. Use Demolition Rockies to gain the knowledge and industry updates you need to advance and strengthen your demolition business.

In 2018, we had more than 1,000 demolition professionals from across the country join us for Demolition Austin and welcomed 88 exhibitors at the Expo. We look forward to building on this success in 2019. Exhibit sales have opened, and for more information on how to exhibit, contact Ryan Leach, RLeach@smithbucklin.com.

For more information on Demolition Rockies, go to <https://www.demolitionassociation.com/convention>.

2019 Biomass Conference Set

The 12th Annual International Biomass Conference & Expo will take place March 18-20, 2019, at the Savannah International Trade & Convention Center in Savannah, GA. This dynamic event unites industry professionals from all sectors of the world's interconnected biomass utilization industries—biobased power, thermal energy, fuels, and chemicals.

Organized by BBI International and produced by [Biomass Magazine](#), this event brings current and future producers of bioenergy and biobased products together with waste generators, energy crop growers, municipal leaders, utility executives, technology providers, equipment manufacturers, project developers, investors, and policymakers. It's a true one-stop shop – the world's premier educational and networking junction for all biomass industries.

International Biomass Conference & Expo is where future and existing producers of biobased power, fuels and thermal energy products go to network with waste generators and other industry suppliers and technology providers. It's where project developers converse with utility executives; where researchers and technology developers rub elbows with venture capitalists; and where Fortune 500 executives and influential policymakers sit side-by-side with American farmers and foresters.

International Biomass Conference & Expo is the largest, fastest-growing event of its kind. In 2019, this event is expected to draw nearly 900 attendees. In 2018, the event drew more than 700 attendees and doubling the attendance of the inaugural show. This growth is fueled by a world-class Expo and an acclaimed program.
