

C&D World is your Gateway to CONEXPO/AGG

As it has for 20 years, the CDRA will co-locate its C&D World Annual Convention with the huge CONEXPO-CON/AGG event in Las Vegas from March 14-18. The CDRA will be meeting from March 14-15 at the Paris Resort on The Strip, and attendees to the event will receive access to CDRA's room block at the conveniently located Paris. Rooms will cost less than those available publicly or through CONEXPO-CON/AGG. Plus, as usual, the C&D World Annual Convention will provide the latest information on what is going on in the C&D industry.

Every registrant to C&D World will receive a badge that provides access to the big equipment exhibition at the Las Vegas Convention Center. If you have not been to one of these shows before, it is impressive, with an expected 120,000 attendees and more than 2 million sq ft of exhibits.

It is never too early to register for CONEXPO-CON/AGG. Registration will be available through CDRA in the next few days. Once you've registered, reserve your room and get your flight because of the large number of people who will be participating

9th Shingle Recycling Forum Attracts Enthusiastic Crowd

Tremendous interest in promoting roofing recycling was on display by all the stakeholders in the industry at the 9th Shingle Recycling Forum Oct. 5-6 in the Chicago area. There were several highlights of the event:

- A tour of long-time shingle recycling Falcon Green Resources' processing plant, followed by a tour of a hot-mix-asphalt plant's lab where testing is done to ensure quality HMA is made using RAS;
- End Markets Panel presentations that spanned subjects ranging from using RAS for simple dust control for roads to extracting bitumen or creating powders, even a shingle-to-shingle process;
- The benefits of using RAS in hot-mix asphalt, both from an economic and engineering aspect. Using RAS in roadway projects works so well and saves so much that it is now a regular part of doing business in all road contracts led by the Illinois Tollway Authority.

All segments involved in shingle recycling were present, including shingle manufacturers, distributors, roofers, and, of course, processors of waste shingles. A few ideas were discussed to support the industry and will be announced later. The presentations from the event are now available for all Forum attendees to download. Plans are already underway for another forum.

Upcoming Committee Meetings

- **Legislative Committee** - Thursday, November 3rd at 2:00 p.m. ET
- **Membership & Marketing Committee** – Thursday, November 3rd at 4:00 p.m. ET
- **Convention Committee** – Tuesday, November 8th at 6:00 p.m. ET
- **Gypsum Recycling Committee** – Wednesday, November 9th at 11:00 a.m. ET
- **Risk and Safety Management Committee** – Tuesday, November 15th at 11:00 a.m. ET
- **Shingle Recycling Committee** – Tuesday, November 15th at 1:00 p.m. ET
- **End Markets Committee** - Monday, November 21st at 3:00 p.m. ET

*These dates and times are subject to change. Committee meetings are open to all members. To attend a meeting, please contact Michael Van Kerckhove at vankerckove@cdrecycling.org.

Industry News

Collaboration amongst members is the answer for recycling shingles and gypsum wallboard: Lendlease, Mycocyte, and Rockwood Sustainable Solutions, as well as CertainTeed Gypsum, Cooper Recycling, and Lendlease.
