

Four Named to CDRA Board

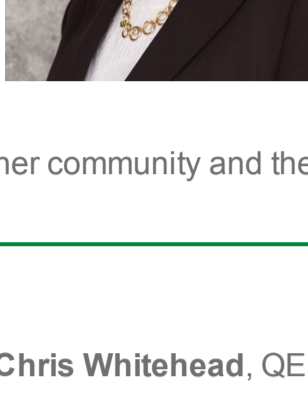

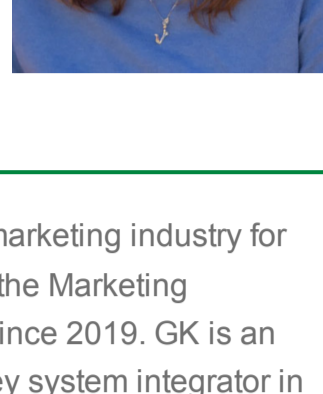

Join all of us here at the CDRA in extending warm congratulations to Dan Horton, Andrea Johnson, Heather Schuler, and Chris Whitehead who have been voted in as members of the CDRA Board!

Retiring from the board are Lora Denney, Denney Excavating, and, Kathy Powles, Falcon Green Resources. The CDRA thanks them for their service to the association.

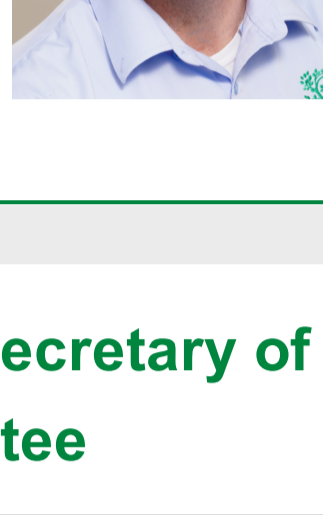

Dan Horton is the president of ASR. From his Midwestern roots as a roofing distributor branch manager and after 19 years in the building materials business, Dan left his director position at IKO Industries, based in Toronto, ON, to establish Asphalt Shingle Recycling (ASR) Systems. His vision was to create a roofing industry circular solution. In 2010, one year after founding the company, he attracted investors and established ASR Holding Company. He developed a more efficient, mechanical recycling method, which separates asphalt roofing shingles, made of six raw materials, into two streams of reusable materials, with zero waste. This novel process was recognized by the US Patent and Trade Office awarding Dan with three utility patents, a fourth patent (design) disclosing recycling equipment design, and a fifth (utility) patent disclosing centrifuge extraction. The two raw materials, defined as less than 500-micron asphaltic limestone powder (ALP) and recycled roofing granules, are a part of various circular economy solutions.

Andrea Johnson is the CEO of van der Linde Recycling, Container Rentals, and Pete's Pick-Up, all of which provide waste and recycling services in the Central Virginia region. Andrea has a B.S. in Business Administration from U.M.U.C and is a licensed waste operator in VA. She has committed herself to a life of service, first as a military wife of 23 years and now to the environment, her community, and the amazing team she works with.

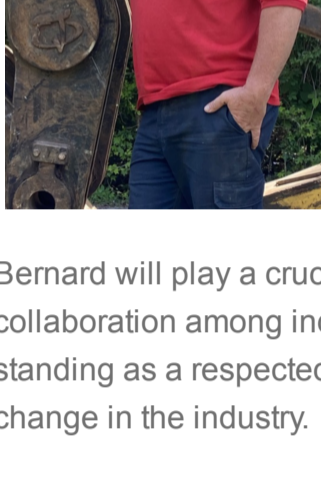

Heather Schuler has been in the marketing industry for more than 25 years. She has been the Marketing Specialist for General Kinematics since 2019. GK is an equipment manufacturer and turnkey system integrator in Crystal Lake, IL. Heather's focus at GK has been on tradeshow strategy and developing relationships with media partners and trade associations. Heather has been an acting member of the CDRA association since starting at GK. She has volunteered on various committees for the CDRA and enjoys volunteering for causes that impact her community and the industries that GK supports.

Chris Whitehead, QEP, CESM, is with ESI Environmental Consulting & Remediation and is a seasoned environmental project manager and air compliance specialist with more than 16 years of experience in the industry. He is certified in ISO14001 and has managed numerous compliance, auditing, offshore wind, GHG, CEMS, and permitting projects during his career. He is a recognized leader in the field of cumulative impacts analysis who regularly collaborates with industry leaders and community groups.

Bernard Styer Appointed as Secretary of the Executive Committee

We are also proud to welcome Bernard Styer as Secretary of the CDRA's Executive Committee.

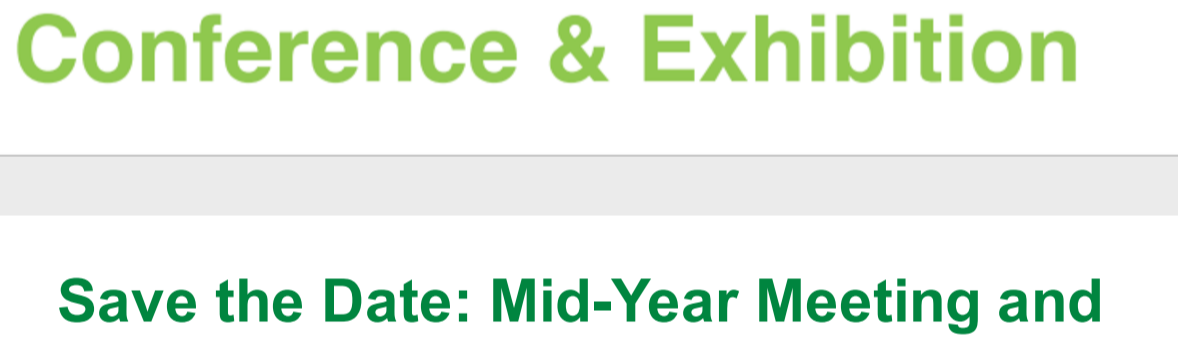

Bernard Styer, President of American Demolition Corp in Egg Harbor, New Jersey, has been appointed as Secretary of the Executive Committee of the Construction & Demolition Recycling Association (CDRA). With his wealth of experience in the demolition industry, Bernard brings valuable insights and expertise to the committee. His dedication to sustainability and responsible waste management aligns perfectly with the CDRA's mission to promote recycling and environmentally friendly practices in the construction and demolition sector. As Secretary, Bernard will play a crucial role in supporting the CDRA's initiatives and fostering collaboration among industry professionals. His appointment underscores his standing as a respected leader in the field and his commitment to driving positive change in the industry.

C&D World 2024: Call for Presenters

January 31st to February 2nd are the dates for the Annual Conference of the CDRA at the **Hyatt Regency Coconut Point Resort** in Bonita Springs, Florida. C&D World 2024 offers a great opportunity for professionals in the construction materials recycling industry to connect and network with their peers. The event features an exhibit hall showcasing the industry's latest technology and services. Additionally, participants will have the chance to visit a local C&D recycling facility.

Naturally, this national event is for all stakeholders in the construction material recycling industry. Our annual event will revolve around top-quality sessions tailored to assist all stakeholders in the construction materials industry. Currently, the CDRA Convention Committee is looking for suggestions and recommendations for presentations at the event. Please contact info@cdrecycling.org with your topic ideas and suggestions for speakers.

Sponsorship and booth sales will open shortly! Watch for information to come your way!

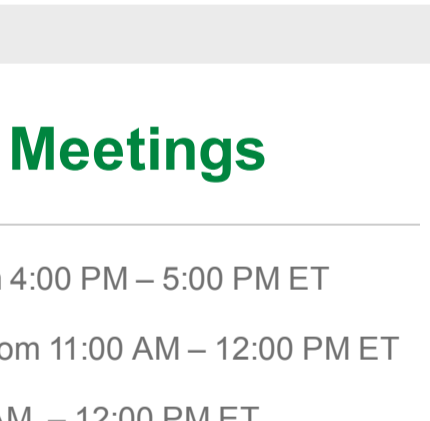

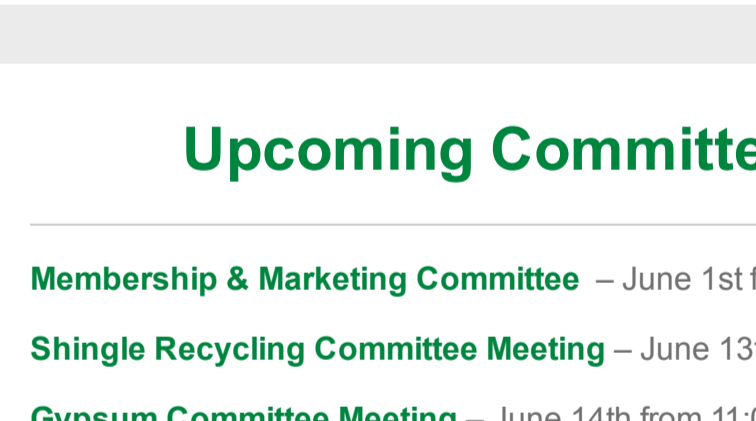

Save the Date: Mid-Year Meeting and Exciting Updates!

We are thrilled to share some exciting news about our upcoming Mid-Year Meeting, including our Board of Directors and Committee Meetings. **All members are welcome!** Mark your calendars for an unforgettable event taking place from **Wednesday, October 4th to Thursday, October 5th, 2023** in Hartford, CT. Get ready for an engaging agenda, including an exclusive tour of the cutting-edge F&G Recycling, a division of USA Hauling & Recycling facility located in Wilbraham, MA, and a social event on Wednesday evening to network with your CDRA community. Our Board and Committee Meetings are scheduled for the entire day on Wednesday, October 4th, while the tour will take place on Thursday, October 5th. Stay tuned for more details on the finalized schedule and travel arrangements, coming your way soon!

For this extraordinary occasion, we recommend making your way to **Bradley International Airport (BDL)**, conveniently located for both locations. We extend our heartfelt gratitude to the entire F&G Recycling team for graciously offering to host our highly anticipated Fall Board Meeting!

[More Information on the Tour Location](#)
